**STATEMENT IN RESPONSE TO INTERVIEW SUMMARY
PURSUANT TO 37 C.F.R § 1.133(b) AND MPEP § 713.04**

Commissioner for Patents

Sir:

Applicants respectfully submit the following Statement pursuant to 37 CFR § 1.133(b) and MPEP § 713.04 in response to the Interview Summary dated June 14, 2010, recording the substance of the interview between the Examiner and the undersigned on June 3, 2010. While the Interview Summary correctly records that the Brown reference was discussed and it was agreed that claim 49 as currently claimed is patentable over the pending rejection under 35 USC §103(a) over Brown in view of U.S. Patent No. 6,179,868 (Burpee et al.), no distinction was made during the interview between the two Brown references cited by the Examiner, *i.e.* U.S. Patent Nos. 7,204,848 (Brown '848) and U.S. Patent No. 6,776,793 (Brown '793). It was understood that the Brown '848 and Brown '793 patents have identical disclosures.

As confirmed with the Examiner in a subsequent interview conducted by phone on June 14, 2010 between the Examiner and John Halski, an associate of the

undersigned, the conclusion reached according to the Interview Summary, *i.e.* that "[c]aim 49 is allowable over Brown '848 because the invention consists essentially only the limitations as recited in the claim", applies equally to the Brown '793 reference, which is a continuation of Brown '848 containing an identical disclosure to that of the Brown '793 reference. Accordingly, the Examiner agreed that claim 49 is equally patentable over Brown '793 and Brown '848, and a Notice of Allowance for the pending claims is forthcoming.
